

Q1 What is $1 + 1$?

$$1 + 1 = 2$$

Q2

a. How about $1 + 2$?

$$1 + 2 = \mathbf{3}$$

b. How about $1 * 2$?

$$1 * 2 = \mathbf{2} \quad \leftarrow \text{This is obvious!}$$

Q3 Use methods A and B to fit a linear model to the given data.
