1 Introduction

- This subsection title shows in some themes, not in others
- Motivation

2 Results

- Assumptions
- Thesis Work

3 Questions

Two Columns

Column 1

- This is
- an itemized
- list.

Column 2

- ① This is
- ② an enumerated
- ③ list.

Two Columns with multicol

Column 1

- This is
- an itemized
- list.

Column 1

- ① This is
- ② an enumerated
- ③ list.

Motivation

This slide starts a new subsection.

Model

This slide starts a new section. Oh, and here are some equations:

$$\frac{dx}{dt} = f_x(x, y, z)$$

$$\frac{dy}{dt} = f_y(x, y, z)$$

$$\frac{dz}{dt} = f_z(x, y, z)$$

Main Result

Theorem (Riemann Hypothesis)

In the unit disc in \mathbb{C} , all of the zeros of $\zeta(s)$, where

$$\zeta(s) = \sum_{n=1}^{\infty} \frac{1}{n^s},$$

lie in $\{s : \operatorname{Re}(s) = \frac{1}{2}\}$.

Thanks!
